Thank you Slugs!
UCSC COVID-19 Recovery Site

ROADMAP TO RECOVERY

News and Updates
Stay informed with the latest information on the campus recovery.

Returning to Campus
UC Santa Cruz is beginning to resume more on-campus operations. Employees can learn more about what is needed to get the campus ready and start developing a workforce plan.

Reporting and Tracking COVID-19
Preventing the spread of COVID-19 is one of our highest priorities.

Keep Teaching
Most instruction in fall quarter will be remote. The Center for Innovations in Teaching & Learning is providing support and resources for instructors.

Support for Students
UC Santa Cruz continues to provide an array of support services so students—on campus or remote—can continue to thrive both personally and academically during this uncertain time.

Support for Employees
Staff Human Resources and the Academic Personnel Office are providing assistance and resources for employees.

Banana Slugs—we can’t wait for you to be back on campus. UC Santa Cruz is carefully beginning to resume some on-campus research and in the coming months plans to increase other operations.

COVID-19 requires us to rethink how we teach, research, and work. There are new policies, guidelines, and protocols that we must all follow to reduce the virus’s spread.

This site is meant to provide everyone in our campus community with crucial information as we work toward resuming more and more in-person research, teaching, and work.

This will continue to be an incredibly dynamic moment in our lives. Never before have Banana Slugs needed to move so fast and adapt so quickly. Together we are Slug strong.

Questions or feedback? Please email publicaffairs@ucsc.edu.

## California Blueprint Model

<table>
<thead>
<tr>
<th>Level</th>
<th>Status Description</th>
<th>More than 7</th>
<th>More than 8%</th>
</tr>
</thead>
<tbody>
<tr>
<td>WIDESPREAD</td>
<td>Many non-essential indoor business operations are closed</td>
<td>Daily new cases (per 100k)</td>
<td>Positive tests</td>
</tr>
<tr>
<td>SUBSTANTIAL</td>
<td>Some non-essential indoor business operations are closed</td>
<td>4-7</td>
<td>5 – 8% and 5.3 – 8% health equity metric</td>
</tr>
<tr>
<td>MODERATE</td>
<td>Some indoor business operations are open with modifications</td>
<td>1 – 3.9</td>
<td>2 – 4.9% and 2.2 – 5.2% health equity metric</td>
</tr>
<tr>
<td>MINIMAL</td>
<td>Most indoor business operations are open with modifications</td>
<td>Less than 1</td>
<td>Less than 2% and Less than 2.2% health equity metric</td>
</tr>
</tbody>
</table>
Other sector guidance from the state and guidelines from other agencies also frame our operations.

California Blueprint Model for Higher Education

**Purple:** Widespread – Tier 1: Lectures prohibited.

**Red:** Substantial – Tier 2: Lectures are permitted but must be limited to 25% capacity or 100 people, whichever is fewer, with modifications.

**Orange:** Moderate – Tier 3: Lectures are permitted but must be limited to 50% capacity or 200 people, whichever is fewer, with modifications.

**Yellow:** Minimal – Tier 4: Lectures are permitted but must be limited to 50% capacity, with modifications.

Other examples

- Limit, to the greatest extent permitted by law, any nonessential visitors or volunteers from accessing campus.
- In-person activities or meetings involving external groups or organizations are not allowed at this time.
- Close nonessential shared spaces, such as game rooms and lounges; for essential shared spaces, stagger use and restrict the number of people allowed in at one time.
Santa Cruz County Status

COVID-19 Data Dashboard: Counts of Known Cases Among Santa Cruz County Residents

For additional dashboard details and data definitions select the information icon.

<table>
<thead>
<tr>
<th>Category</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total known cases of COVID-19</td>
<td>2,771</td>
</tr>
<tr>
<td>Active known cases</td>

<tr>
<td>Required hospitalization while ill with COVID-19</td>
<td>182</td>
</tr>
<tr>
<td>Total number of negative lab test results</td>
<td>57,423</td>
</tr>
</tbody>
</table>

Epidemic curve and total count of known cases

Identified most likely source of exposure to COVID-19 for known cases of COVID-19 among Santa Cruz County residents

- Person to Person - Household: 66.73%
- Community acquired: 11.79%
- Person to Person - Close contact: 8.94%
- Travel: 8.37%
- Person to Person - Healthcare setting: 0%

Data represents Known Cases of COVID-19 among residents of Santa Cruz County, by data reported to the Communicable Disease Unit (CDU) from health providers or electronic lab reporting. Data is provisional and subject to change. It is important to look at trends over time when reviewing these data rather than drawing conclusions from any individual data points, as data can change based on additional reporting and case investigation. Data was extracted from the California Reportable Disease Information Exchange (CalREDIE). Dashboard was developed by the Epidemiology & Surveillance Division of the CDU for Santa Cruz County.

Last refreshed 10/23/2020, 08:09; updated with data entered into CalREDIE as of 10/22/2020, 17:00.
# DRAFT Winter 2021 Strategy

The following represents the draft winter strategy. This is subject to change.

<table>
<thead>
<tr>
<th>INSTRUCTION</th>
<th>HOUSING</th>
<th>RESEARCH</th>
<th>OPERATIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Most instruction will be remote, with the exception of a small number of classes (e.g. laboratory, studio, field research, etc)</td>
<td>Those without suitable alternative living arrangements will again be prioritized.</td>
<td>Research began ramping up in May and will continue to do so in the lead up to fall.</td>
<td>Those operations that can continue to be remote should continue to do so.</td>
</tr>
<tr>
<td>Whether in-person or remote, the campus is committed to the values of fostering community, ensuring accessibility, and facilitating deep learning across and beyond the academic curriculum.</td>
<td>Additional students may be accommodated, space permitting. Quarantine and isolation space will be set aside.</td>
<td>Square footage ratios and lab layout dictate the number of people allowed in lab spaces.</td>
<td></td>
</tr>
</tbody>
</table>

---

**Strategy**

The following represents the draft winter strategy. This is subject to change.
Six Elements of campus mitigation strategy

- The health and wellbeing of students, employees, visitors, and members of the broader community will be at the forefront of all planning and decisions;
- The institutional mission of teaching and research (regardless of method of instruction) will be prioritized;
- All activities and operational plans will comply with current governmental orders and guidance, including CDC Guidance for Higher Education Institutions, California Department of Public Health (CDPH), Santa Cruz County Public Health, Santa Clara Public Health, Monterey County Public Health Department, OSHA Guidance, American College Health Association Guidance, and EEOC Guidance. In addition, in-person resumption planning must comply with the University of California Consensus Standards for Operation of Campus;
- There will be clear policies and protocols for what is expected of community members and mechanisms in place to educate, promote and enforce compliance;
- Campus community members will be expected to embrace their social responsibility for each other by abiding by state and local orders and University policies and protocols.

GUIDING PRINCIPLES OF UCSC PLANNING:

1. Symptom Check
2. Training
3. Worksite Plans
4. Testing
5. Compliance
6. 6 Slug Strong Actions
# UCSC COVID-19 Testing Matrix

- Testing populations, mandates and frequencies are subject to change based on campus and local conditions, state/county requirements, or other factors.
- "On site" refers to any UCSC owned or operated facility where students or employees come to live, work or otherwise engage in programs, services and activities; includes UCSC sponsored programs, meetings, field research, etc., hosted at off site venues.

<table>
<thead>
<tr>
<th>Population</th>
<th>Frequency Now</th>

<td>• is symptomatic</td>
<td>As needed</td>
<td>Direct consult with Student Health Services</td>
</tr>
<tr>
<td>• was exposed to Covid-19 + person</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Testing Lab Compliance

- SARS-CoV-2 diagnostic testing is carried out under the regulations of the Clinical Laboratory Improvement Amendment (CLIA) and adhere to all reporting requirements of the California Department of Public Health and Santa Cruz County Public Health.
- The test being used was developed and validated by the UCSC Molecular Diagnostic Laboratory (MDL) specifically to detect SARS-CoV-2.
- This test has been approved by our Clinical Laboratory Improvement Amendments (CLIA)-certified lab director and has been validated under CLIA by successfully comparing its performance to a Food and Drug Administration (FDA) Emergency Use Authorized test and in accordance with FDA guidelines for molecular diagnostic tests performed in a single high-complexity CLIA laboratory such as ours.
Testing Feedback

As of 10.23.20, we have received 873 survey responses from those participating in campus testing.

- The appointment process was easy: 97.1% Agree/Strongly Agree
- The check in process was fast: 99.6% Agree/Strongly Agree
- I felt safe: 98.9% Agree/Strongly Agree
- Workers were professional: 100% Agree/Strongly Agree
Testing & Campus Case Counts

CAMPUS TESTING PROGRAM WEEKLY STATS:
• Total number of tests run during week: 1426 (1302 students/124 employees)
• Total number of positives during week: 0
• 7-Day positivity rate: 0%
• 14-Day positivity rate: 0%

Since the beginning of the COVID-19 pandemic, a total of 20 cases have been reported among the campus community.

<table>
<thead>
<tr>
<th>Total</th>
<th>20</th>

<td>1</td>
</tr>
</tbody>
</table>

Campus COVID-19 summary

1. These cases are reported to the campus from the Santa Cruz County Health Services Agency
2. These cases are self-reported by campus community members to UC Santa Cruz
Leveraging Opportunities

The Levering Opportunities Workgroup is focused on telecommuting and opportunities to optimize and simplify processes as well as identify and prioritize critical workflow or productivity software.

A new set of tools was released to assist managers and employees with putting in place both Situational and Routine Telecommuting arrangements.

We are hosting a Telecommuting Roundtable on **November 20th from 1:00 pm to 2:30 pm.**

Support for Employees

**Working from Home**

As more faculty and staff work remotely, the campus has developed several tools to assist in the development of telecommuting plans, guidelines and resources. These are intended to support both Situational Telecommuting (i.e. telecommuting that is taking place due to COVID-19 but would not continue long-term) and Routine Telecommuting (i.e. telecommuting that is implemented because it works well long-term for the employee and their department and will continue beyond COVID-19). It is envisioned that routine telecommuting will continue to expand across campus.

**Situational Telecommuting: Current COVID-19 situation**

- **Guidelines:** Provides employees and managers with expectations and requirements for working remotely without a pre-established alternative work arrangement. Areas addressed include duties and assignments, communication, work environment, safety, equipment, and reimbursable expenses.

**Routine Telecommuting (working part-time off-site) & Remote Work (working full-time off-site)**

- **Guidelines:** Provides employees and managers with requirements for established telecommuting and remote work arrangements, including eligibility, work schedules, availability, communication, and remote worksite safety.
- **Self-Assessment:** A one-page survey that helps inform compatibility for working remotely with criteria including appropriate job duties, success in current position, self-management, flexibility, communication skills and an appropriate remote working environment.
- **Self-Certification Safety Checklist:** Guides the employee in assessing the overall safety of the proposed alternate worksite and computer workstation, including UCSC ergonomics training and worksite assessment.
- **Agreement:** Outlines agreed-upon conditions, requirements and expectations to ensure successful telecommuting and remote work arrangements. This document is prepared jointly by the employee and manager and subject to the department head/senior manager’s approval.

**Resource Needs for Remote Worksites:** Key resources along with sourcing options to help support employees in optimizing their remote worksites.

Manager and Supervisor Training
Leading Remote and Hybrid Teams

This session will provide:
• An overview of the trend towards distributed workforces, including the advantages and challenges of the model
• A review of the changing work model and best practices for building parity and productivity across your team
• Practices to establish a consistent team culture in a time of change
• Opportunities to ensure engagement and safety for those whom you supervise
• This training is geared towards professionals who supervise or manage full time staff.

Monday, October 26, 2020; 10:30AM-12PM (via Zoom) – Register Here!
Tuesday, November 3, 2020; 10 - 11:30AM (via Zoom) – Register Here!
Thursday, November 12, 2020; 2 - 3:30PM (via Zoom) – Register Here!
Thursday, November 19, 2020; 9 - 10:30AM (via Zoom) – Register Here!
