

University of California Consensus Standard	UC Santa Cruz Compliance With Standard (✓=YES)	Compliance Summary
<p><u>UC Consensus Standard 1:</u> Plans will comply with applicable state and local orders and directives.</p>	✓	<ul style="list-style-type: none"> <li>● The plan includes a listing of all applicable state, local, and University of California system requirements with which the resumption plan must comply.</li> <li>● The plan includes the provision for actively monitoring all applicable orders and making adjustments where needed.</li> </ul>
<p><u>UC Consensus Standard 2:</u> Plans will identify metrics or indicators for prudently increasing (and decreasing) in-person/on-site activities as local circumstances dictate, utilizing a phased approach. The capacity of on-campus, sister campus, or other community-based health systems supporting the University location to handle surges without resorting to crisis standards of care should be among the relevant indicators.</p>	✓	<ul style="list-style-type: none"> <li>● The plan includes a <a href="#">5-part phased return</a> plan that is tied to the State of California Resilience Roadmap.</li> <li>● The plan specifies additional county data (including elevated disease transmission, increasing hospitalizations and limited hospital capacity <a href="#">data</a>) that are tracked by the campus.</li> </ul>
<p><u>UC Consensus Standard 3:</u> Campus locations will perform detailed risk assessments and implement site-specific protection plans; these will be updated if and as appropriate in response to identified work-related transmission. They should designate a responsible official or office to respond to COVID-19 concerns or utilize existing infrastructure (e.g., local hotlines) to address this need.</p>	✓	<ul style="list-style-type: none"> <li>● The plan includes a process for undertaking site assessments and includes a copy of the worksite plan template.</li> <li>● The plan mandates that worksite plans are posted on-site.</li> <li>● The plan includes a link to the Environmental Health and Safety <a href="#">Hazard Alert System</a> where people can anonymously report potential violations.</li> <li>● The plan includes guidance for managers and supervisors for how to handle potential reports of potential work-related transmissions and how to direct individuals.</li> </ul>

		<ul style="list-style-type: none"> <li>● The plan includes identification of the Student Health Center as the primary liaison with the County Department of Public Health for any potential cases.</li> </ul>
<p><u>UC Consensus Standard 4:</u> Plans will include provisions for screening individuals entering University-owned or operated facilities, arranging for clinical tests of any students, faculty, or staff who exhibit symptoms consistent with COVID-19, and investigating any COVID-19 illness to determine if conditions should be altered to further mitigate risks, and identify other University-affiliated people who may have been in close contact. Testing and contact tracing may be performed by the campus, a sister campus, local health officials, or other community resources.</p>	✓	<ul style="list-style-type: none"> <li>● The plan includes requirements regarding signs that must be posted outside of every space that has been approved for use and that contain information on symptom checks that those entering the facility must perform.</li> <li>● The plan includes the requirement that employees working on-site must complete an online daily symptom check and a message is sent to supervisors indicating if that employee has been cleared to be on-site.</li> <li>● The plan includes a process for managing symptomatic testing and identifies the Student Health Center as the lead for this and subsequent communication and contact tracing coordination with the County of Santa Cruz.</li> <li>● The plan includes provision for additional trained contact tracers to support county efforts.</li> <li>● The plan includes a voluntary asymptomatic testing program that is offered to employee cohorts with higher in-person contacts due to their jobs. Cohorts were chosen in alignment with the <a href="#">tiering</a> outlined by the California Department of Public Health.</li> <li>● The plan includes provision for the implementation of a broad asymptomatic testing program for students and employees in fall quarter, 2020.</li> <li>● The plan includes provision for the move-in and sequestration processes for students living on campus to be in alignment with the recommendations coming from the University of California Testing and Contact Tracing Task Force.</li> </ul>
<p><u>UC Consensus Standard 5:</u></p>	✓	<ul style="list-style-type: none"> <li>● The plan includes a reduction in capacity of on-campus housing to approximately 53% of baseline and details the</li> </ul>

<p>Plans will address housing density for different types of campus-owned and operated housing and adjustments to common areas, assure appropriate training and PPE for resident assistants and other housing staff, and identify on-site or off-site options for isolation of those students who live in on-campus housing and are diagnosed with COVID-19, as well as quarantine for those who are identified as close contacts of COVID-19 positive individuals.</p>		<p>bedroom and bathroom occupancy ratios that will be used.</p> <ul style="list-style-type: none"> <li>• The plan includes specifications about the number and location of both quarantine and isolation spaces.</li> <li>• The plan specifies that housing staff and resident assistants will have focused COVID-19 training and will be equipped with the required Personal Protective Equipment (PPE).</li> </ul>
<p><u>UC Consensus Standard 6:</u> Plans will require adoption, implementation, and education on individual risk reduction measures including at least hand hygiene, universal face covering and physical distancing, as appropriate, consistent with applicable orders and directives, and influenza vaccination. Plans should consider how best to adapt facilities and operations as relevant guidance evolves to facilitate physical distancing and otherwise mitigate the risk of transmission.</p>	<p>✓</p>	<ul style="list-style-type: none"> <li>• The plan includes a process for undertaking site assessments and includes a copy of the worksite plan template. These plans specify any facility alterations or layout adaptations that will be implemented to facilitate physical distancing. These assessments also specify the COVID-19 safety signage that must be posted at each entrance, including signage related to physical distancing, face coverings, and hand washing.</li> <li>• The plan includes mandatory COVID-19 Workplace Safety training for all employees working on-site. The training utilizes the Sum Total learning management system, which tracks completion.</li> <li>• The plan includes provision of a student COVID-19 training module that will utilize the Canvas system, which is the tool used for other mandated student training.</li> <li>• The plan includes a marketing and educational program grounded in social responsibility called <i>Slug Strong</i>, which is aimed at providing awareness of the steps each campus community member can take to advance health and safety.</li> </ul>

<p><u>UC Consensus Standard 7:</u> Plans will include measures to reasonably address students, faculty, and staff who provide appropriate documentation that they are at increased risk for severe illness in the event they contract COVID-19.</p>	✓	<ul style="list-style-type: none"> <li>• The plan includes guidance for how requests for accommodations should be handled and also provides for adjustments to that process as needed.</li> </ul>
<p><u>UC Consensus Standard 8:</u> Plans will address access to campus or to individual facilities by non-affiliates who are not performing essential work.</p>	✓	<ul style="list-style-type: none"> <li>• The plan includes provision for an Interim Compliance Policy that applies to both affiliates and non-affiliates.</li> </ul>
<p><u>UC Consensus Standard 9:</u> Plans will address any special safety measures necessary to resume operations in buildings that have been shuttered for a prolonged period; and include measures to procure adequate equipment and supplies (including personal protective equipment) and to retain and properly equip adequate staff to undertake in-person/on-site operations at sites where appropriate adaptations have been made to reduce risk. Plans will include measures to properly clean and disinfect facilities and equipment, particularly those that may be shared, and otherwise reduce the chances of exposure to COVID-19.</p>	✓	<ul style="list-style-type: none"> <li>• The plan includes a process for undertaking site assessments and includes a copy of the worksite plan template. This template includes review of building systems (e.g. HVAC, water systems, and life safety systems) prior to opening. It also includes guidance for cleaning and disinfecting facilities and equipment.</li> <li>• The plan includes methods for procuring needed supplies and equipment, including a link to the Environmental Health and Safety COVID-19 <a href="#">Resources Request Form</a>, from which orders for needed personal protective equipment (PPE), sanitation supplies and stations, and workspace adaptation materials such as plexiglass can be ordered.</li> </ul>
<p><u>UC Consensus Standard 10:</u> Plans will be publicly posted. They will include provisions to educate students, faculty, staff, and non-affiliates permitted on site about COVID-19 and how to</p>	✓	<ul style="list-style-type: none"> <li>• The plan includes a process for undertaking site assessments and includes a copy of the worksite plan template. These assessments also specify the COVID-19 safety signage that must be posted at each entrance, including signage related to physical distancing, face</li> </ul>

<p>reduce its spread. Other modes of communication designed to apprise stakeholders – including those with limited English proficiency – of the measures adopted locally and any adjustments as they are made should be considered.</p>		<p>coverings, and hand washing expectations for everyone entering a facility.</p> <ul style="list-style-type: none"> <li>● The plan includes a marketing and educational program grounded in social responsibility called <i>Slug Strong</i>, which is aimed at providing awareness of the steps each campus community member can take to advance health and safety. This includes signage with options available for individuals with limited English proficiency.</li> <li>● The plan will be posted online.</li> </ul>
